

بسم الله الرحمن الرحيم وبه نستعين إله خير ناصر ومعين الحمد لله رب العالمين وصلى الله على محمد وعلي وآلهما الطيبين الطاهرين ولعنة الله على أعدائهم أجمعين أبد الآبدين

In the name of Allah the Compassionate and the Merciful. We asking help to Allah: verily He is the best Helper. Praise Allah, the Lord of the worlds. May Allah pray on Mohammad, Eali and their family the virtuous, the pures and curse of Allah be with their enemies forever and ever.

Allah the High, the Almighty in His sage and high Book said:

هُوَ الَّذِي جَعَلَ الشَّمْسُ ضِيَاءً وَالْقَمَرَ نُورًا وَقَدَرَهُ مَنَازِلَ لِتَعْلَمُوا عَدَدَ السِّنِينَ وَالْحِسَابَ

It is He Who made the sun a shining thing and the moon as a light and measured out for it stages that you might know the number of years and the reckoning.

The mean solar time of the calendars of Hayât-aëlâ Foundation is Mean Time KMT, Kaëbah - Makkah

THE ANNUAL LETTER OF THE Public Ephemeris Calendar

Happy New Year!

Happy New Year for the followers of the Truth

Invocation at the moment of the turn of the year

اللَّهُمَّ يا مقلب القلوب و الأبصار ثبت قلوبنا
وأبصارنا على دينك اللَّهُمَّ يا مصرف القلوب صرّف
قلوبنا الى طاعتك ونور أبصارنا بالقرآنويا محول
الحول والأحوال حول حالنا إلى أحسن الحال

Allāhomma yā moqallebal-qolōbe wal-ābsār ṣabbet
qolōbanā wa absāranā ʿalā dīnek. Allāhomma yā
moṣarrefal-qolōb, ṣarref qolōbanā alā tāʿatek wa nawwer
ābsāranā bel-qorān, wa yā moḥawwela-l-ḥawle wal-aḥwāl
ḥawwel ḥālanā elā aḥsanel-ḥāl

*O Allāh, the one who changing the hearts
and the discernments, keep our hearts
and discernments for Your religion.*

*O Allāh, the one who making the hearts
attentive, make our hearts attentive
to Your obedience and our discernment
illuminated by the Qurān.*

*O Allāh, the one who changes situations and
circumstances, change our circumstance
to the best of circumstances.*

Rites and rituals for the Lunar New Year

1-In the Discourse of Custodians of the Revelation ﷺ, the lunar year, for the followers of the Truth, starts with the blessed month of Ramaḍān and ends with the month of Šaēbān.

To get more details about this topic, refer to the weekly **Rāhe Āsemān n°1**:

<http://www.aelaa.net/Fa/viewtopic.php?f=52&t=35#p1084>

2-The last day of the month of Šaēbān, at sunset and when the night is beginning, the lunar new year is starting. So, the first night of the blessed month of Ramaḍān precedes its first day.

3- In the School of the Revelation, for starting the New Year, there is specific acts of worship to ensure that the year will start in obedience and adoration.

4- This spiritual beginning allows that the followers of the Truth begin the New Year in success, enšāā-allāh, and benefit from a better protection against mistakes and calamities in the new year.

5- The acts of worship for beginning the lunar new year have been published independently in the book: *The rites and rituals for the beginning and the end of the Lunar Year*.

the blessed month of Ramaḍân*

Laylat al-Qadr

Beginning of the New Year for the followers of The Truth
May Allâh make us honest and worthy of the
presence of Ĥâdrat Qodsiyyeh Waĵhollâh

اللهم يا مقلب القلوب والأنصار ثبت قلوبنا وأبصارنا على دينك اللهم يا مصترف القلوب صرف قلوبنا إلى طاعتك ونور قلوبنا وأبصارنا

بالتقرآن وبما يحول المحول والأحوال حول حالتنا إلى أحسن الحال

Allâhomma yâ moqallebal-qolôbe wal-âbsâr çabbet qolôbanâ wa absâranâ
ĕalâ dînek. Allâhomma yâ mošarrefal-qolôb, šarref qolôbanâ alâ îâĕatek wa
nawwer âbsâranâ bel-qorân, wa yâ moḥawwela-l-ĥawle wal-aĥwâl ĥawwel
ĥâlanâ elâ aĥsanel-ĥâl

*O Allâh, the one who changing the hearts and the discernments,
keep our hearts and discernments for Your religion.*

*O Allâh, the one who making the hearts attentive, make our
hearts attentive to Your obedience
and our discernment illumined by the Qurân.*

*O Allâh, the one who changes situations and circumstances,
change our circumstance to the best of circumstances.*

وَجَّهْتُ وَجْهِي لِلَّذِي فَطَرَ السَّمَوَاتِ وَالْأَرْضَ * عَالِمِ الْغَيْبِ وَالشَّهَادَةِ * عَلَى مِلَّةِ إِبْرَاهِيمَ
وَدِينِ مُحَمَّدٍ * وَوِلَايَةِ عَلِيِّ وَمِنْهَاجِ أَمِيرِ الْمُؤْمِنِينَ وَهُدًى عَلِيِّ بْنِ أَبِي طَالِبٍ * وَالْإِيْتِمَامِ
بِالْأَيْمَةِ مِنْ آلِ مُحَمَّدٍ (الحسن و الحسين و السجاد و الباقر و الصادق و الكاظم و الرضا و الجواد
و الهادي و العسكري و المهدي) صَلَوَاتُكَ عَلَيْهِمْ * حَنِيفًا مُسْلِمًا * وَمَا أَنَا مِنَ الْمُشْرِكِينَ * إِنَّ
صَلَائِي وَنُسُكِي وَمَحْيَايَ وَمَمَاتِي لِلَّهِ رَبِّ الْعَالَمِينَ * لَا شَرِيكَ لَهُ وَبِذَلِكَ أُمِرْتُ وَأَنَا مِنَ
الْمُسْلِمِينَ * لَا إِلَهَ غَيْرُكَ وَلَا مَعْبُودَ سِوَاكَ * اَللَّهُمَّ اجْعَلْنِي مِنَ الْمُسْلِمِينَ *

Wajjahto wajhī lellażī faīaras-samawāte wa-l-ard, ėālemel-ġaybe
waš-šahādah, ėalā mellate Ebrāhīma wa dīne Moĥammad, wa
welāyate Ėaliyyen wa menĥāje Amīre-l-moāmenīn, wa hodā Ėaliyye
ebne Abī Tāleb, wa-l-ītmāme be-l-aāemate men āle Moĥammad (al-
Ĥasan, al-Ĥosayn, al-Saġġād, al-Bāqer, al-Sādeq, al-Kazem, al-Redā,
al-Ĵawād, al-Hādī, al-Ėaskari wal-Mahdī) šalawātoka ėalayhem.
Ĥanīfan, mosleman, wa mā anā mena-l-mošrekīn. Enna šalātī wa
nosokī wa maĥyāya wa mamātī lellahe rabbe-l-ėālamīn, lā šarīka lah
wa bežaleka omerto wa anā mena-l-moslemīn, lā elāha ġairoka wa lā
maėbōda sewāk. Allāhomma-ĵ-ėalnī mena-l mosallemīm.

*Verily, I have turned my face towards Him Who has created the
heavens and the earth, the All-Knower of the unseen and the seen,
according to the Ibrahim tradition and the religion of Muhammad,
the Welayat of Ėalī, the commander of the believers, and the
guidance of Ėalī ibn Abi Taleb, taking as Ėmāms, the Ėmāms of
Muhammad's Family (al-Ĥasan, al-Ĥosayn, al-Saġġād, al-Bāqer, al-
Sādeq, al-Kazem, al-Redā, al-Ĵawād, al-Hādī, al-Ėaskari wal-
Mahdī). I am monotheistic and I am not polytheistic. Verily, my
prayer, my ritual, my life and my death are for Allāh, the Lord of
the Worlds: for so I am commanded and I am Muslim. O my Lord
put me amongst the people who are muslim.*

Penumbral, total and partial lunar eclipse on 14th Šawwāl 1442.

The night before the day of Wednesday 14 Šawwāl 1442 = 5 Gemeni = 5 Ķordād 1400 = The night before the 26th May2021.

Location: This eclipse will be visible in America, East Asia and Western Australia.

In those areas the signs prayer is obligatory.

This eclipse is Member 56 of 84 of saros 121.

Umbral magnitude: 1.9540

Penumbral magnitude: 1.0095

The legend of the codes of diagram against:

P1: first point of exterior contact times with the penumbra

P2: The penumbra covers two-thirds of the moon's surface= the beginning of the penumbral eclipse

U1: first point of external point of contact with the shadow= the beginning of the partial eclipse

U2: the beginning of total eclipse

U3: the end of the total eclipse

U4: the end of the partial eclipse

P3: the last point where penumbra covers two-thirds of the moon's surface= the end of the penumbral eclipse

P4: last point of exterior contact times of the Moon's penumbral shadow

The hours of the penumbral, total and partial eclipse:

In the Šariča, the criterion which determines the obligation of the signs prayer is the observation with naked eye of the eclipse from the Earth's surface. The penumbral eclipse of the Moon becomes noticeable when penumbral shadow of the Earth cast onto the two-thirds of the full Moon and dims its surface.

The eclipse will begin at 11:47 KMT (P1) but it's only around 12:29 KMT that Penumbra will cover the two-thirds of the Moon's face (P2) causing the moon to darken and appear to change color on the southern half of the Moon.

At this moment, the signs prayer is obligatory. Before this, color change and darkening of the Moon are not perceptible.

The partial eclipse will begin at 12:45 KMT (U1) and will finish at 15:52 KMT (U4).

The total eclipse will begin at 14:11 (U2) and will finish at 14:26 KMT and approximately at 16:11 KMT, two-thirds of the moon will be in darkness (P3).

After this point, the color change of the Moon will no longer be visible. So, according to the Šariča, it will be the end of the eclipse and the end of the obligation of signs prayer despite that, in fact, the eclipse, as an astronomical event, will continue until 16:49 KMT (P4).

The areas of visibility of the penumbral, total and partial eclipses:

In the following map; the grey-shaded areas are the zones where the penumbral eclipse will happen.

In the other areas, the eclipse will not be visible.

The center of the eclipse will happen in the middle of the Pacific Ocean.

About the areas of the penumbral lunar eclipse located between P1 and P4, in Americas, the eclipse will occur in the setting of the Moon. And between P1 and P4, in Asia and Australia, the eclipse will occur in the rising of the Moon.

Observation areas of all the phases of the penumbral, partial and total eclipses:

In grey-shaded areas located between P3 and P2, all the phases of the eclipse will be observed after moonrise and the eclipse will end before moonset.

In those areas, the eclipse will be the longer.

In grey-shaded areas located between U1 and U4, the partial eclipse will begin after moonrise and will end before moonset.

In grey-shaded located between U3 and U2, the total eclipse will begin after moonrise and will end before moonset.

In this area the total eclipse will be the longer.

Observation areas of some phases of the penumbral, partial and total eclipse:

In Asia and Australia: In areas located between P3 and U4, the end of the penumbral eclipse of the Moon will happen after moonset, therefore the eclipse in those areas will not be visible. Similarly, for the end of the partial eclipse in the areas between U4 and U3.

Between U3 and U2, for the total eclipse

and between U2 and U1, for the partial eclipse

and between U1 and P2 for penumbral eclipse, the observation of the eclipse will not be possible in areas where the eclipse will occur after moonset.

In Americas:

In areas located between P3 and U4, the end of the penumbral eclipse will occur before moonrise, therefore the eclipse will not be visible.

Similarly, in the areas between U3 and U4 for the end of the partial eclipse.

Between U3 and U2, for the total eclipse

and between U2 and U1, for the beginning of the partial eclipse

and between U1 and P2, for the beginning of the penumbral eclipse, the observation of the eclipse will not be impossible given that the eclipse will occur after moonrise.

On the map, the white areas, between P1 and P2 and the areas between P4 and P3, the penumbral eclipse only will occur but it will not be perceptible because the penumbra will cover less than two-thirds of the full Moon and the color change of the Moon will not perceptible. In those areas, according to the criteria of the Šariča, there is no eclipse and no signs prayer.

Astrological chart of the mid eclipse

The middle of this Lunar eclipse will occur at the Moon's ascending node in the 6th degrees of sidereal Scorpio

Perform signs prayer

According to calculation, it is possible to determine the moment of the penumbral eclipse when the Moon will begin to change color, but in all cases, the criterion which determines the obligation of signs prayer is the observation; that is to say, from the beginning of the penumbral eclipse until the mid eclipse, it should be possible to see that the Moon has changed of color and became darker. In this case, the signs prayer is obligatory.

The beginning of the time of signs prayer is the beginning of the eclipse. It is not appropriate to delay the fulfillment of the prayer beyond the mid-eclipse. The time of signs prayer terminates with the end of the eclipse.

In the table below those times have been listed. The obligation of signs prayer is starting with the beginning of the eclipse. In the table, the hours of the beginning of the eclipse have been mentioned in the first column. As, it is not appropriate to delay the signs prayer after the middle of the eclipse (when the eclipse reaches its full development), the hours of the mid-eclipse have been mentioned in the second column. In this column, when no hour has been mentioned, it means that in this city, the eclipse will happen after the second half of the eclipse: in those areas, the signs prayer must be immediately performed, without delay in any case.

The hours of the end of the eclipse have been listed in the last column: the hours mentioned in this column are also the hours of the end of the obligation of the signs prayer.

Eclipse Partial duration: 3h07

Eclipse total duration : 14 minutes

Penumbral, Partial and Total lunar eclipse duration: : 3h42

Annular and partial Solar eclipse on 29th Šawwāl 1442

The night before the day of Thursday 29th Šawwāl 1442 = 20th Sagittarius = 20th Khordad 1400 = 10th June 2021.

Location: From North America to Europe and North Asia

Eclipse path:

This eclipse is Member 23 of 80 of Saros 147. The eclipse will begin above the Atlantic Ocean and in the North of America at 11:12 KMT and will continue its path, crossing the Ocean and North Africa, Europe and North Asia for finishing its path above East Asia and China at 16:11 KMT. The maximum of the eclipse will occur at 13:42 KMT in the north of Canada with a magnitude of 0.9435.

About the annular eclipse, it will reach a width of 527.1 kilometers for a duration of 3 minutes and 51 seconds.

About the map of the eclipse path:

The area determined by a pink line on the left side of the map, shows the area where the eclipse will begin.

The area determined by a pink line on the right side of the map, shows the areas where the eclipse will end.

In the area determined by a pink line on the left side of the map, the solar eclipse will begin at the end of the night.

The area determined by a pink line, on the extreme left side of the map without blue line, designates the zone where the eclipse will be visible at sunrise. In this area, the eclipse will begin from the mid eclipse.

The area determined by a pink line on the left side of the map with blue lines, designates the mid eclipse and the phases of the eclipse after sunrise.

In the area determined by a pink line on the right side of the map, the night will begin before the end of the eclipse, so, the end phases of the eclipse will not be observed.

The area determined by a pink line on the extreme right side of the map with blue lines, designates the area of the mid eclipse and the phases after it, that will happen before sunset.

The area determined by a pink line on the right side of the map with blue lines, designates the mid eclipse and the phases after it, which will happen after sunset. In this area, it will be only in the late afternoon, before sunset, that the beginning of the eclipse will be visible. In this area, nor mid eclipse nor the end of the eclipse will not be observed.

Outside of this zone, in areas determined by blue lines, all the phases of the eclipse will be observed.

Perform signs prayer

The beginning of the time of signs prayer is the beginning of the eclipse.
It is not appropriate to delay the fulfillment of the prayer beyond the mid-eclipse.
The time of signs prayer terminates with the end of the eclipse.

In the table below those times have been listed. The obligation of signs prayer is starting with the beginning of the eclipse. In the table, the hours of the beginning of the eclipse have been mentioned in the first column.

As, it is not appropriate to delay the signs prayer after the middle of the eclipse (when the eclipse reaches its full development), the hours of the mid-eclipse have been mentioned in the second column. In this column, when no hour has been mentioned, it means that in this city, the eclipse will happen after the second half of the eclipse: in those areas, the signs prayer must be immediately performed, without delay in any case.

The hours of the end of the eclipse have been listed in the last column: the hours mentioned in this column are also the hours of the end of the signs prayer.

Month of Šafar

Following of **the mourning for Ēmām Ĥosayn** عليه السلام
and days of **grief and captivity of the Rull Hold of the Prophet** عليه السلام
Šalla l-lāho ėalayka yā mawlā yā abā Moĥammad al-Ĥassan al-Moĵtabā
The seventh day of the month of Šafar
the martyrdom of Ĥadrat Ēmām Ĥasan Moĵtabā عليه السلام

View of the Sanctuary of the martyrs of Šeffin battle

The eighteenth day of Šafar is the commemoration of the martyrs of the Šeffin battle. Ĥadrat Mawlā himself made the funeral prayer and buried them himself (Ēmār, Oweys, ĵazīmeh, Abol Heyġam and ...). This place is also the qadamġah and mošallā of Ĥadrat Mawlā, Ĥadrat Ēmām Ĥasan Moĵtabā and Ĥadrat Ēmām Ĥosayn. The importance of this place is so remarkable that it is worthy recommended to go there for ziyārat and spending a few days near the martyrs. Allāh grants this success to all believers.

Today a shrine has been built in Ar-Raqqa in Syria. This shrine is the result the efforts of Ayatollāh Fehrī. May Allāh help to complete this great work, its development and maintenance.

To get more details about this topic refer to the divin calendar of the month of Šafar in **welāyat and barāāt times** website of **Ĥayāt-aėlā** Foundation:

Yā Rasōlo-llāh, Yā ʿeś mato-llāh

The early days of the month of Rabiʿ al-awwal
the days of mourning for
Mohammadi, Mohseni and ʿAskari ﷺ

صلى الله عليك يا رسول الله صلى الله عليكم يا أهل بيت النبوة
Šalla-llāho ʿalayka yā Rasōlo-llāh
šalla-llāho ʿalaykom yā Ahle bayte nobowwat

To get more details about this subject refer to the divin calendar of the month of Rabiʿ al-awwal in the *welāyat and barāʿat times* web site of *Ĥayāt-aʿlā* Foundation: www.aelaa.net/Fa/viewforum.php?f=168

يا مولاتي يا فاطمة الزهراء أعييني

Yā Mawlāti Yā Fātēmah Zahrā Aḡiḥini

View of Rawḍato-Nnabi and the main door of ḥazrat Mawlā and Fātēmah through which Gabriel didn't enter without permission. When ḥazrat Moḥammad wanted to enter in this Rull, he laid his two hands on the both sides of the door and with a loud voice so that the people of the mosque hear, he recited the verse of the holy Qoran about the virtues of the Ahlol-Bayt and said salam to them and if he didn't hear answer, he turned and went away. This same door has been broken and burned and three people were done martyrs. The Muslims (with the exception of a few persons) watch this drama without saying anything.

In the left side of the picture; the door of the house of Fātēmah. To hide it, the Wahhabis have put some shelves on doorstep and they have eliminated the inscription that was above the door.

The ninth day of Rabi' al-awwal
The great festivity of Mohammad's family ﷺ ﷺ

The seventeenth day of Rabi' al-awwal
The Birthday Festival
of the Prophet and Wasi

Ĥadrat Ĥabibo-llāh Moĥammad al-Moīsafā ﷺ ﷺ
And Ĥadrat Ĥaq nāteq Ĵaēfer Šādeq ﷺ

We convey our congratulations to Ĥadrat Waĵhollāh, the
real qiblah of Allāh's servants, Mawlānā Šāĥeb al-amr,
the Master of the Order (*May our souls be his ransom*)
